Executive Compensation

“Our” Treasurer investing
in banks, informing bosses
what they can pay execs.

I thought, something man-
agement decided under
Capitalism, with con-

currence of flat-out
whores on Boards.

At any rate, this Supreme’ll knock
ole Treasury down. Yeah, exec pay

depraved gouging–
to understate. But, as be-
fits Home of the Terrified

Free & Land of the Just
Too Infrequently Brave, legal.

(“Legal!” How often this barbed stick
twisting your nether regions?)

So, instead, Government & Business
’ll have to institute Gentlemen’s
Agreements. *(pause for laughter)*

In *Juno & the Paycock*, Sean O’Casey’s
“Captain” Boyle gets stripped of his
beloved suit by Finance Muscle…left

standing in his underwear. Let’s
hope they deign to favor us thusly.
